Policy of anti-inflation.
Appointment of a Committee for curtailment of expenditure in prusuence of -

GOVERNMENT OF BOMBAY.
Finance Department.
Resolution No. 6858/33-D.
Bombay Castle, 27th October.1948.

RESOLUTION OF GOVERNMENT.

The Government of India have recently announced the measures which it is necessary to take in pursuance of the policy of anti-inflation. One of these measures is the regulation of Government expenditure in such a manner that (a) revenue expenditure is limited to, and if possible is well below, revenue receipts, and (b) capital expenditure is financed from loans, and reserves are not drawn upon. This implies the curtailment or postponement of avoidable items of expenditure and, therefore, an assessment of the degree of avoidability of individual items in the light of such priorities as may be laid down from time to time by Government. The Annexure contains a satement of the principles which Government desires to be observed in this context. It has been decided to entrust to a small Committee the task of scrutiny of items of expenditure, both current (1948-49) and budget (1949-50), and of curtailment or postponement of particular items, in accordance with the general principles approved by Government. This Committee, which may be referred to as the "Expenditure Priorities Committee" will consist of:-

(1) the Hon'ble the Finance Minister,

(2) the Chief Secretary, and

(3) the Finance Secretary.

The Committee will call for any information that may be requisite and, after consulting Departments wherever possible communicate its decisions ~~as~~ to the Department concerned or issue general directives to all Departments. Any decision or directive objected to by an Hon'ble Minister may, at his

instance.....

instance and with the concurrence of the Hon'ble the Premier, be placed before the Cabinet for final orders.

By order of the Governor of Bo

B.VENKATAPPIAH,
Secretary to Government.

To

The Private Secretary to the Governor,

The Hon'ble the Premier,

All Hon'ble Ministers,

The Accountant General, Bombay,

*The Prothonotary and Senior Master, His Majesty's High Court Bombay,

*The Registrar of His Majesty's High Court of Judicture, Appellate Side, Bombay.

All other Heads of Departments under the several Department of the Secretariat,

All Departments of the Secretariat (except the separate Department).

* By letter.

A N N E X U R E.

I. Classification of expenditure.

(1) Development, (viz)., (broadly in the order in which they figure in the budget) Irrigation, Education, Medical, Public Health, Agriculture, Veterinary, Co-operative, Industries, Labour Welfare, Housing, Organization of Milk Supply, Communications, Electricity, and Nationalisation of Road Transport.

(2) Non-Development, viz., all other types of expenditure.

II. General considerations.

(1) With the exception that minimum essential expenditure on administration, and particularly on law and order, should have the first priority, all "development" expenditure should have priority over "non-development" expenditure.

(2) Among items of "development" expenditure, those which are "productive"-viz., productive of food and other essential consumers' goods - should have priority over those which are non-productive.

(3) Among schemes which are productive, the following considerations should weigh in descending order of importance:

(a) those which are productive in a short term should have priority over those which are productive in a long term;

(b) those which produce more should have priority over those which produce less;

and

(c) those which are financially remunerative should have priority over those which are unremunerative and, among the latter, those which are less unremunerative should have priority over those which are more unremunerative.

(4)...

(4)Schemes of low priority which happen to have been already started should be stopped at a convenient intermediate stage, but, until such stage is reached, should have priority over schemes not yet started.

(5) All expenditure, considered to be of extremely low priority by the above standards, and therefore avoidable, should either be terminated or postponed.

III. Priorities inter se for Items of "Development" Expenditure.

Subject to the above considerations, the priorities among the classes of "development" expenditure mentioned in I(1) above, should be as follows:-

A. Revenue Schemes.

(1) Agriculture (including Veterinary Services) and Irrigation.

(2) Industries.

(3) Education.

(4) Communications.

(5) Public Health (including Medical Services).

(6) Co-operation.

(7) Labour Welfare.

B. Capital Schemes.

(1)Agriculture and Irrigation.

(2) Housing.

(3) Electricity.

(4) Industries.

(5) Education.

(6) Communications.

(7) Public Health (including Medical Services).

(8) Organisation of Milk Supply.

(9) Nationalisation of Road Transport.

Minor Irrigation Works.
Retransfer of -- to the
Public Works Department.

Government of Bombay,
Agriculture and Rural
Development Department
Resolution No.1314.
Bombay Castle, 5th November 1948.

Resolution of Government.

Government is pleased to direct that with effect from the 1st April, 1949, the agency for carrying out the work of maintenance and repairs to Minor Irrigation Works should be the Public Works Department. Such maintenance and repair works as have been transferred to the Directorate of Agricultural Engineering should, therefore, be retransferred to the Public Works Department on the 1st April, 1949, under intimation to the Superintending Engineers concerned and the Secretary to the Government of Bombay, Public Works Department (Irrigation). The Agriculture and Rural Development Department will, however, continue to be the Administrative Department as heretofore for all Minor Irrigation Works.

2. As the cost of construction of new Minor Irrigation Works is high and the area likely to be brought under irrigation comparatively small, no new works should be undertaken until further orders.

3. The seventeen Minor Irrigation Works, started by the Directorate of Agricultural Engineering should be carried out to completion by that Directorate. Works started by the Public Works Department should, similarly be carried out to completion that Department.

4. In view of paragraph 3 above, the Public Works Department staff working in the Directorate of Agricultural Engineering should continue to work in that Directorate.

5. The District Rural Development Boards should forward to the Superintending Engineers concerned lists of Minor Irrigation works in need of repairs after assigning the necessary priority. The Superintending Engineers should

take.....

up these works according to priority assigned.

6. The office of the Superintending Engineer, Minor Irrigation Circle, should be wound up with effect from the 15th November, 1948, or any subsequent date as may be convenient. The Director of Agricultural Engineering should absorb or discharge after a month's notice such of the staff as cannot be taken up in his office or in any of the offices under his charge.

By order of the Governor of Bombay,

D.N. Mahta,
Secretary to Government.

G.R.,No.1314, A.& R.D. dated the 5th November, 1948.

To

The Commissioners of Divisions,
All Superintending Engineers of the Circles,
The Director of Agricultural Engineering,
All Collectors,
All Secretaries of District Rural Development Boards,
All Executive Engineers of Divisions,
All executive Engineers of Minor Irrigation Divisions,
The Director of Publicity,
The Accountant General (through the Finance Department),
The Public Works Department,
The Finance Department,
All other Departments of the Secretariat (except the Separate Department).
